Rob, it will report all costs charged to the Pavillion account including HQs and other regions as long as they charged their time on People Plus. The summary you will be getting will identify who charged to the Site. This includes contractors too, as long as they charged to the Site.

One last question regarding the report - does this take into account all EPA costs or just R8 costs?

Start contracts do have annual allocation rates but you are correct in that their time is a direct cost.

Direct costs include the START contractors time thought, right? I ask because you mentioned annual allocation costs are contract related, so I want to clarify that the START contract costs aren't in this category.

Thanks,
Rob

Direct costs are work related costs.

Indirect or annual allocation costs are non-work related but contract related. Examples: % towards leasing costs, electricity, phones, computers, etc.

Thanks Sharon,

DO you know what the difference is between "direct amount" and "annual allocation"?

Thanks,
Rob

They downloaded SCORPIOS for me this morning.

This is just an estimate. These numbers may not be accurate. We would need to run a reconciled report to get an accurate number.

These reports are often very close though.

Please do not release this report. You can site the amount as an "estimate" but we are not allowed to release the actual report.
